

Paisley and Filigree Diamond Wedding Band, RG-1747wbg

Paisley filigree swirls and mille grain enhance the design of wedding rings like this one. This 18k white gold diamond wedding band is elegant worn alone or paired with a filigree engagement ring. Twenty-two round brilliant cut diamonds accentuate the band along the top and shoulders and six additional diamonds add shimmer and sparkle on the sides. The combined weight of all 28 diamonds is 0.20 carats.

Options	None
Item #	rg1747wbg
Metal	18k white gold
Weight in grams	2.35
Special characteristics	This wedding band compliments engagement ring style RG-1747 as well as engagement ring style RG-2567. The band is also beautiful worn alone. It is not curved or notched like a fitted band. The band is shown with engagement ring style RG-1747 in one of the photos.

Other ring info	For new rings like this one, the gram weight, diamond and gemstone carat weights, color, and clarity, as well as other jewelry details, vary from the specifications shown on this page, but are similar in quality.

Important Jewelry Information

Each antique and vintage jewelry piece is sent off site to be evaluated by an appraiser who is not a Topazery employee and who has earned the GIA Graduate Gemologist diploma as well as the title of AGS Certified Gemologist Appraiser. The gemologist/appraiser's report is included on the Detail Page for each jewelry piece.

An appraisal is not included with your purchase but we are pleased to provide one upon request at the time of purchase and for an additional fee. The appraiser bases the value for the jewelry on the range of prices prevailing in the most common and appropriate retail markets on the date the appraisal is completed.

Diamonds, pearls and colored gemstones are graded by the grading standards as taught by the Gemological Institute of America (GIA). All measurements and carat weights are approximate, unless otherwise noted, and are determined without removing the stones from the mounting.

The process of determining when a jewelry piece is made and the period it belongs to is not an exact science. The determination is based on design, materials, hallmarks, signatures, and the manufacturing method. Circa dates and period assignments are made to the best of our abilities.

All pearls are cultured unless noted as natural. All gemstones have been treated by accepted industry standards unless noted otherwise.

Platinum refers to all metals in the platinum family and the alloys which are mixed with it -- palladium, platinum/iridium, and platinum/ruthenium and platinum/cobalt. A non-destructive acid scratch test is used to verify the metal in each jewelry piece. A refractometer is used to test gemstones.

Computer monitors show colors differently; please keep in mind that the actual colors in a jewelry piece may be different from the colors displayed in the website photos.

Jewelry photographs are enlarged to show details. To help you determine if a jewelry piece is appropriate in terms of actual proportions that suit your style as well as the statement you want to make, we provide detailed measurements of the piece.

Rings are photographed on a mannequin's hand in a glove size 6. Rings in sizes from 5.0 or smaller are photographed on a mannequin's hand in a glove size of 5.0.

Each antique and vintage jewelry piece has been pre-owned and expertly restored unless otherwise noted under "Condition".

For special ring orders as well as antique style and vintage inspired rings which are new, the diamond and gemstone carat weight, color, clarity, gram weight, as well as other jewelry details may vary from the website specifications.
